

MUHAMMAD ABDULLAH SAAD

Computer Engineering Undergraduate

+92 319 7842864 abdullahsaadofficial@gmail.com [linkedin.com/in/abdullacaad](https://www.linkedin.com/in/abdullacaad)

SUMMARY

I am a Computer Engineering undergraduate with a strong interest in Cloud Computing, DevOps, and system infrastructure. I possess a solid understanding of Linux, networking fundamentals, and software development workflows. I am comfortable with command-line tools and version control systems, and I actively develop skills in containerization, cloud platforms, and automation tools.

EDUCATION

Bachelor of Engineering in Computer Engineering
University of Engineering and Technology (UET) Taxila
08/2023 - 05/2027 Taxila, Pakistan

CERTIFICATIONS

Cisco Networking Academy – Introduction to IoT
Cisco Networking Academy – Introduction to Cybersecurity
HP LIFE – Data Science & Analytics

PROJECTS

Linux System Administration Practice

Linux System Administration Practice

- Configured and managed Linux environments using command-line tools
- Worked with file permissions, processes, and system utilities
- Practiced package management and basic troubleshooting

Docker-Based Application Setup

Docker-Based Application Setup (Learning Project)

- Built and executed containerized applications using Docker concepts
- Learned image creation, container lifecycle, and environment isolation
- Practiced running applications in consistent environments

Student Management System

Student Management System (C++)

- Developed a complete student record management system
- Implemented CRUD operations using file handling
- Applied modular programming principles

IoT Monitoring System

IoT Monitoring System

- Designed a basic IoT setup for sensor data monitoring
- Implemented basic communication between hardware components
- Worked on hardware-software integration and testing

STRENGTHS

Problem-Solving Skills

Strong problem-solving and analytical skills

Linux Proficiency

Comfortable working with Linux and command-line environments

Cloud & Containerization Knowledge

Understanding of cloud and containerization fundamentals

Adaptability

Ability to adapt quickly to new tools and technologies

Communication Skills

Good documentation and communication skills

SKILLS

Linux

Bash

Shell Scripting

Git

GitHub

GitLab CI/CD

Docker

Kubernetes

Helm

Jenkins

Ansible

Terraform

AWS

Azure

GCP

Prometheus

Grafana

ELK Stack

Nginx

Apache

TCP/IP

Python

YAML

JSON

Vagrant

VirtualBox

WSL

Agile

Scrum

DevSecOps
